

# Interview/Interrogation, Advanced

(POST Plan IV Certified Course #31465)

**Take your tactical interviewing strategy to the next level.** This "state-of-the-art" method developed through years of formal scientific research and is currently being used by the US military and law enforcement agencies throughout the world. **Integrates with ANY interview system!**

**Course Description:** Understanding body language and reading people well is a crucial skill for many professionals whose jobs require interviews, interrogations, and information collection and reaction elicitation of others. This POST certified course leverages state-of-the-art behavioral science about behavioral indicators that have been validly and reliably demonstrated as signs of critical mental states.

Topics covered include knowledge and skill development to identify various behavioral indicators of specific emotions, cognitions associated with words or verbal phrases, cognitive processes, and overall arousal.

Participants learn to apply this knowledge base and skills in interviews and interrogations and improve their abilities to gain insights about the mindsets of the interviewees by focusing on the world of nonverbal behavior evaluated in context against verbal output.
